

Dr. Dale H. Isaacson, M.D. and Dr. Marilyn Berzin, M.D.

local artist that line the walls, SKIN will be the new favorite of many DC residences. Don't let the name fool you. Though they may offer many cosmetic procedures, SKIN also provides help to those with dermatologic skin problems (i.e. acne, psoriasis, and mole removal), thus giving SKIN a very well rounded treatment facility. One of the benefits of this location is that it is one of the few offices to offer teeth whitening and massage therapy. Just imagine regaining a new look and revitalizing your body all at one location! To learn more about SKIN and its many treatment options call 202.298.SKIN or visit their website at www.Georgetownskin.com

Washington, DC 20007

HERE'S TO A YOUNGER YOU!

We try to eat healthy (sometimes), we workout (when we can) and we try live an overall healthy lifestyle (this may be a bit of a stretch), but we do tend to get a sense that all of our efforts are not paying off in our appearance. As a society, we wish to stay and look healthy for as long as possible. The definition of being healthy can be found in any dictionary, yet if you asked a general audience; the consensus would be the younger you look the healthier you are. Now we all know health has no relation to our age but in most cases youth represents soundness of body and mind, fitness, and vigor. Yet not all individuals are able to obtain or this create this illusion. After child birth, working a 9-5 job for 20 or more years, and/or making unhealthy lifestyle choices, our bodies can reflect an age and look that do not match how we may feel inside. Dr. Dale H. Isaacson,

M.D. and Dr. Marilyn Berzin, M.D. wish to help take the hands of time and reverse them... at least within your appearance. Located in the heart of Washington DC, DC DermDocs is renowned for their skills and services. From Acne to anti-aging treatments, DC DermDocs can help you gain a more youthful you. From traditional treatments such as hair removal and skin resurfacing, to life changing treatments such as body contouring and non-surgical facelifts, Dr. Isaacson and Dr. Berzin provide their patients with a more youthful appearance and with it, a new lease on life. Known for their Thermage treatments (non-surgical face, skin, and body lifts) they can give men and women the appearance of having "work down" without any of the "down time" that is necessary for after surgical treatments. They realized that we as a whole are very self conscious about our appearance and also know the desperate measures that many are willing to take to look their best. DC DermDocs is not only here to create a better you, but to also decrease the odds of a patient having to go under the knife. Due to the advances of technology and their need to contently provide the best possible treatment for their patients, Dr. Isaacson and Dr. Berzin can guarantee that many of their procedures have little to no discomfort. Even with a little discomfort, it is wonderful to know that one can continue on with their day without missing a beat! To learn more Visit www.dcdermdocs.com or call 202.822.9591.
